## Residential Grade Mats

The Residential Golf Practice Mat is for use indoor or outdoors. Used properly, this economical, home-use golf practice mat will last you a lifetime. The softer gray backing isn't quite as durable as the more rigid black backing of our commercial grade golf mats, but these golf practice mats hold up well, provide cushioning, and are an excellent value for back yard or garage use.

Both the nap and the turf are thicker and more durable than what is typically referred to as a "residential hitting mat", and the turf and backing are hand-glued for premium quality.

### Residential Grade Mats

## Commercial Grade Mats

Our Commercial Grade Driving Range Golf Practice Mat is perfect for all-day, every-day commercial use. This is the golf mat we sell to golf courses, driving ranges and educational institutions. We can supply the individual consumer with the same golf practice mat, at the same price!

This stadium-quality turf is hand glued to an extra thick rigid black padding layer that helps even the mat on uneven surfaces, and also provides additional cushioning. If you want a durable golf mat designed for heavy-use, this is it!

Commercial Grade Driving Range Golf Practice Mats are perfect for use on hard or soft surfaces such as interior floors, or exterior concrete or blacktop ... can even be used on grass!

**TrueStrike Golf Mat MKVI - SERIES**

TrueStrike golf mats have a flexible top surface and a gel-filled divot - simulating subsurface which accurately recreates the effects of playing off a natural fairway by allowing the club head to play through the playing surface as it would on turf.

The "fairway forgiveness" effect produced by TrueStrike means that the shock and vibration associated with hitting from ordinary mats is substantially reduced. The "fairway forgiveness" effect will actually help to improve your practice experience by replicating shots you would play on the fairway. You will love the realism this effect produces.
