

CLOSING THE BIG DADDY INSTA-NET™

Continued

DO NOT LET GO OF THE NET.

From this position, the net can pop open again. Keeping your feet or knees on the net frame, slide the storage strap on the net. Make sure the strap is centered on the net.

WARRANTY

This product from IZZO GOLF Inc. is warranted to the original purchaser for a period of 90 days from the original purchase date against defective material and workmanship. Any implied warranties are also limited in duration to 90-day period from original purchase date. This warranty is void if the product has been damaged by accident or unreasonable use, neglect, improper service, normal wear and tear or other causes not arising out of defects in material or workmanship. IZZO GOLF Inc. shall not be liable for loss of use or other incidental or consequential costs, expenses or damages incurred by purchaser. There is no warranty for netting deterioration due to natural factors.

If your product fails during the warranty period, we will repair any defects or, at our option, replace the product with a reconditioned model of equivalent quality. There is no charge to the purchaser when the product is returned prepaid with proof of purchase to the address listed below. Products returned without proof of purchase and date of purchase may, at the customer's request, be repaired or replaced at the service rates in effect at the time of return.

Packaging accuracy: We make every attempt to package every item correctly. If a part has been inadvertently omitted in packaging, please call the number listed below and we will send the part to you immediately at no charge. We provide this service to solve the problem quickly and to ensure your satisfaction with our products.

BIG DADDY INSTA-NET™

You have purchased a net that is easy to setup and take down. Safe use of this net depends on your complete understanding of these instructions before setting up the net. You will find the setup and take down process easier if you have another adult help you the first time. **CAUTION: AFTER ASSEMBLY THIS NET OPENS VERY QUICKLY.** Start in an open and clear area; **NO PEOPLE OR OBJECTS AROUND.** This net goes from a shipping size to a 9-foot circle in less than one second. Children should not be allowed to open or close this net.

READ PRIOR TO SETTING UP YOUR NET

NET PLACEMENT:

DO NOT place the net near any solid objects like trees, fences, retaining walls, block walls, rocks, windows, or any other object that could cause the ball to rebound, ricochet or cause damage. Remember that it is possible for a ball to ricochet off of a hard floor or ground surface as well.

DO use common sense in selecting the area beyond the net. Avoid windows, people or other objects that could be harmed if you mis-hit or throw a ball.

WHERE TO STAND:

The distance you choose to stand from the net will vary from person to person due to height, ability, power, etc. Stand about a club length away from the net. If you are using a high lofted wood or iron, move closer to keep the ball flight contained within the nets' frame. Begin your practice with slow, easy swings. From there, adjust your swing and net distance to fit your needs.

FOR GOLF PRACTICE:

Stand so the ball is positioned to hit the center of the net. In general, you may use any Iron or Woods for your practice. If you are using a higher lofted club like a 9 iron or wedge, move closer to the net (do not move so close that the club will come in contact with the net frame). This net is a practice tool, we recommend you work with your personal coach or teacher to get their recommendation for your game. IZZO offers a full line of training aids to help all golfers improve. Visit your local golf retailer or www.izzo.com to view our complete assortment of training aids. IZZO-practice anywhere and improve everywhere.

INSPECT YOUR NET EACH TIME BEFORE YOU PRACTICE:

Nets are inspected before shipping and are warranted for 90 days. Factors that may speed the rate of net deterioration include, but are not limited to: amount of use, exposure to the elements (such as sun, wind and rain), air pollution and misuse. We recommend you fold the net and store it inside when it is not in use. This will help to prolong the life of your net. Sun, wind, rain and pollution are damaging elements.

Parts List

- Frame
- Net
- White Strap
- Blue 'X' Cross Strap with Weight Bag
- 4 Ground Stakes
- 2 Guidelines
- Storage Strap

ASSEMBLY INSTRUCTIONS

CAUTION: THIS NET OPENS VERY QUICKLY.

1

Assemble frame by inserting the smaller fiberglass end of the pole section into the center of the larger metal sleeve. Frame should form an oval.

2

Lay frame on ground and rotate connectors on frame so they face inside of net. Twist frame rod to rotate the connectors, do not loosen screws. Black connectors should be at the bottom of the frame.

3

Attach white strap to white connector on each side of frame.

4

Find weight bag attached to strapping that forms a large 'X'. Place weight bag at bottom of frame between the black connectors and attach short ends of blue 'X' cross straps to the connectors. Attach Velcro® strap on weight bag to frame.

5

Locate green connectors at top of frame. Attach green clips at long end of blue 'X' cross straps to green connectors on frame.

CONNECTOR

6

Stand net upright and anchor by adding weight to the weight bag or using the enclosed ground stakes.

7

Find red clip at top of netting attached to topmost part of the frame.

8

Working down from the red clip, attach all clips to the frame on sides of net.

9

Attach guidelines to each side of net and secure.

CLOSING THE BIG DADDY INSTA-NET™

1

Remove weight or ground stakes from base of net. Grab frame at 10 and 2 o'clock positions.

2

Push the net down to the ground with your right hand while pulling the net towards your body with your left hand. Let the net collapse naturally to the ground. This will result in a 'figure 8'.

3

Lift up on the left loop with your left hand and fold over the right loop to form two circles.
